# MANAGED DATA SERVICES

FOR SAP® S/4HANA

THE PERFECT TOOL FOR VIEWING AND MANAGING DATA & PROGRAMMING MODELS IN SAP S/4HANA®

Structure and implement your next project effectively & save time!

- ✓ Webbased development tool

- ✓ Overview of all development properties

- ✓ Graphical analysis of object relationships

- ✓ Switch conveniently between UI and database

- ✓ No eclipse plugin or add-on needed

- ✓ Start directly with enhancements in the system

THE FOCUS IS ON THE USER

Simple: Quick navigation & numerous features at just a few clicks - without any coding

Efficient: Convenient display & analysis of relationships, add information easily

User-friendly: Access and operation via the familiar SAP Fiori® Launchpad
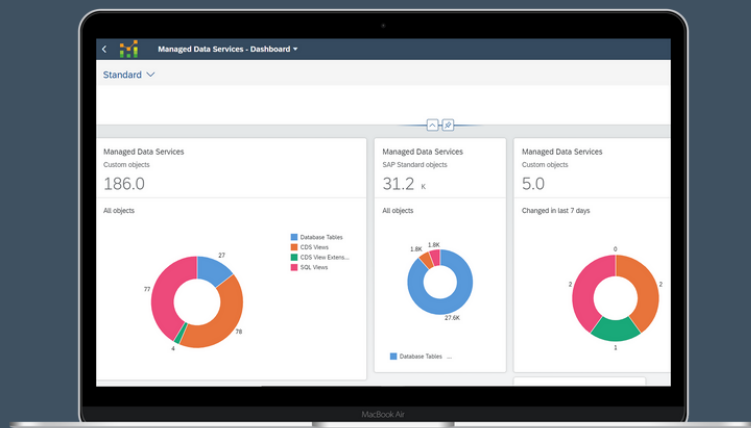

KEEP THE OVERVIEW OF YOUR DATA

Whether **CDS views, CDS views extensions, SQL views** or **database tables** - with the Cadaxo MDS you can easily display and understand relationships between objects graphically. Avoid uncontrolled growth and keep an overview of the SAP® standard objects as well as your own development objects.

S/4HANA® IMPLEMENTATION MADE EFFICIENT: THE MANAGEMENT OF DEVELOPMENT OBJECTS HAS NEVER BEEN EASIER!

ADVANTAGES IN DEVELOPMENT

- Find and complete missing information easily
- Comprehensive data analysis within minutes
- Clear representation of relationships, no cumbersome searching in the code
- Quickly switch between UI & database
- Conveniently determine the origin & path of a field
- Easily determine at which level which information needs to be added
- Start directly with the enhancements and improvements

INSTALLATION AND KEY DATA

- Available as of SAP Netweaver® ABAP 7.4 SP05
- Backend - OData Service - ABAP GIT
- Frontend - SAP Fiori® Tool Deploy
- Installation via SAP® Workbench- and Customizing Transports

FEATURES

- **MDS Dashboard:** overview of all development objects in the system
- **Search App:** search, filter and sort CDS views
- **Graph App:** Graphical display of relationships between individual objects (CDS views, CDS views extensions, SQL views, database tables)
- Display and search **fields, annotations, header annotations** and **parameter**
- Open and display **source code in browser or ADT** (Eclipse) directly via Graph App
- **Display field source:** find field origin - from UI to database
- **Display Field Target:** analyze the usage of DB tables in CDS views - from database to UI
- **Usability:** filter nodes, search in selected graph, display legend, zoom in/out/to fit

THIS IS CADAXO

Cadaxo GmbH, founded in 2009 in Vienna, is an **established, innovative SAP®-consulting company**. Our missions is to make SAP® working life easier and more efficient.
